

## **THE HPBEXPO 2010 NEW PRODUCTS LIST**

### **American Biomass /WoodPellets.com**

Outdoor Booth 5965

#### *Pellet Pod*

The Pellet Pod (delivering pellets on demand) is a bulk wood pellet transfer solution that automatically conveys pellets from a storage unit to a bucket installed near a pellet stove. It eliminates the need to haul heavy bags from the garage or basement.

### **American Electric Fireplaces**

Indoor Booth 1824

#### *CELSI Electric Fireplaces*

These fireplaces offer flame images and optimal functionality.

### **Anywhere Fireplace**

Indoor Booth 2049

#### *Chelsea*

This high-style, ventless, stainless steel, wall-mount fireplace burns bio-ethanol liquid fuel gel.

### **BBQ Hooker**

Indoor Booth 2047

#### *BBQ Hooker*

The one and only BBQ Hooker is a 4-in-1 unique grilling tool. Sharp hook, strong rounded spatula, serrated knife edge and bottle opener. A “left handed” version is also available so everyone can experience the function and versatility of our patented design. Visit us at booth 2047 or at [www.bbqhooker.com](http://www.bbqhooker.com).

### **Barbous International, Inc.**

Indoor Booth 2269

#### *Bayou Classic Cypress Grill*

Ceramic Kamado grill with a Cypress Leaf surface glaze making each grill unique and distinctive. The grill comes with a 18.5” reversible stainless steel grate, a stainless steel thermometer, 2 folding side shelves, ceramic inserts and more. It is versatile enough to grill and sear, barbecue, smoke or bake.

### **The Bio Flame**

Indoor Booth 2468

#### *Allure and Avante Fireplaces*

Both fireplaces are ethanol-fueled.

**Black & Stone, Inc.**

Indoor Booth 2244

*EzyFlame Fire Grate*

This ethanol-fueled fireplace grate is perfectly portable and the easiest way to fire up on no-burn days.

*VioFlame*

This ethanol fireplace, like the EzyFlame is an easy way to enjoy an outdoor fireplace on no-burn days.

**Breckwell Hearth Products**

Indoor Booth 2839

*Mahogany Wood-Burning Stove*

Designed as a freestanding stove or insert, the Mahogany wood stove offers Quad Radiant and Convection Air Heat Systems, log storage and pedestal with ash bin.

**Can Cooker, Inc.**

Outside Booth 5048

*Can Cooker*

The Can Cooker is a convenient and healthy outdoor cooking system. The cooker produces deep penetrating steam that cooks food to perfection. It is easy to use, simple preparation and a heat source is all you need. Perfect for backyard cookouts, hunting, camping and tailgating. You can create a complete meal for 2-20 people in an hour.

**Canterbury Enterprises**

Indoor Booth 1811, Outside Booth 5142

*Blue Flame Multi-Functional Gas Valve*

Advantages to homeowner: if a fireplace can be used for either wood burning or artificial log sets, then it is the homeowner's decision. Advantages to retailers: stock only one valve. Easily switched to wood burning – 22,000 BTUs, artificial gas logs – 225,000 BTUs. The valve will be CSA certified for outdoor BBQ pits and firepits.

**Canterbury Enterprises**

Indoor Booth 1811, Outside Booth 5142

*Environmentally Friendly Fire Grate*

Earth's Flame is a retrofit device for new and existing fireplaces that substantially reduces harmful emissions by promoting good combustion. It is cost effective, requires no maintenance and is easily installed/used. The grate is adjustable for various fireplace geometrics, durably constructed and surpasses the 2012 EPA qualification level for manufactured fireplaces.

**The Companion Group**

Inside Booth 1667

*Grill Station™*

Grill Station™ marinates, stores, chills and serves food and keeps accessories close at hand. Large, ridged trays designed for even marinating are marked RAW and COOKED eliminating confusion.

### **The Companion Group**

Inside Booth 1667

#### *Pit Mitt<sup>®</sup>*

Pit Mitt<sup>®</sup> is an aramid fiber soft glove with cotton lining that allows the user to handle hot items around and directly off of a very hot grill. The Pit Mitt<sup>®</sup> is reversible for left or right hand, has silicone on the surface for superior grip and is washable.

### **The Companion Group**

Inside Booth 1667

#### *Steak Station<sup>®</sup>*

Steak Station<sup>®</sup> monitors four steaks simultaneously, allowing those commanding the grill to confidently cook multiple steaks each to the desired degree of doneness. An easy-to-read monitor allows for simple and easy evaluation of how much a steak has been cooked. The colorful Steak Station<sup>®</sup> probes measure from 115°F to 170°.

### **Copreci/Mondragon Components**

Inside Booth 2650, Outside Booth 5256

#### *Dual Fuel Heater*

Copreci introduces its Dual Fuel Heater (patent pending), a system that is basically a standard heater, gas log, stove or fireplace, but with the possibility to make a conversion with only one action. [www.copreci.com](http://www.copreci.com)

### **Copreci/Mondragon Components**

Inside Booth 2650, Outside Booth 5256

#### *Green Flexifire*

The Green Flexifire by Copreci is the most efficient system for long horizontal ducts with low emissions, high efficiency and better burning quality. Less energy, savings, all fire positions (duct length up to 100 feet), and smaller duct diameter (0.42).

[www.copreci.com](http://www.copreci.com)

### **Copreci/Mondragon Components**

Inside Booth 2650, Outside Booth 5256

#### *Jingle Flame Control*

This new control system allows your fire to dance to the music coming from different sources e.g., MP3 player, iPhone, TV or microphone. This new feature gets a perfect regulation because it allows all possible positions, not only maximum, medium or minimum. There are no fixed positions – it simulates real fire. A random system allows flames to go up and down and at the same time regulates the temperature of the room.

[www.copreci.com](http://www.copreci.com)

## **Decoflame USA, LLC**

Indoor Booth 2051

### *City Fireplace*

At Decoflame USA LLC, our new City Fireplace is in a league of its own. Not only is this fireplace a work of art, but its sustainability and high performance surpasses anything Decoflame has offered in the past. Available in a black or stainless steel finish, come experience the heat of the City!

## **Dimplex North America**

Indoor Booths 1416 and 1417

### *BLF52 Electric Fireplace*

This fireplace is over four feet long with recessed installation, realistic flame.

### *OptiMyst*

A fine water mist that creates the illusion of smoke.

## **Diversitech**

Indoor Booth 3039

### *The Gas Grill Splatter Mat™*

The Gas Grill Splatter Mat™ is a 30" x 48" flexible pad composed of two non-woven fiber materials separated by a patented barrier media that protects surface areas from grease and sauce drippings. 100% recyclable. The mat will not bond or adhere to composite decking.

## **Diversitech**

Indoor Booth 3039

### *The Christmas Tree Stand Mat*

The Christmas Tree Stand Mat is the ideal answer to prevent ruined carpets and scratched floors associated with overfilling Christmas tree stands and moving artificial tree stands. Available in reversible holiday green red and red, the 30" round Christmas Tree Stand Mat comes in a 16 count shipper/displayer for easy merchandising.

## **Ecofan**

Indoor Booth

### *The Ecofan*

This heat powered fan is designed to circulate the warm air created by a wood or gas stove. With the use of thermoelectric technology, the fans power themselves through the temperature differentiation between hot and cold. The Ecofan requires no plug-in or batteries and increases the speed and the amount of time that the comfort level of a room can be achieved and maintained. This in turn cuts down on the amount of fuel needed.

## **Fire Wire®**

Indoor Booth Number 1715

### *Fire Wire® Stainless Steel Flexible Grilling Skewers*

Fire Wire® is a 100% stainless steel flexible grilling skewer that saves space on your grill and allows you to marinate your kabobs in a plastic bag. Fire Wire® is dishwasher safe, won't rust and comes with a lifetime guarantee.

**firegear, LLC**

Indoor Booth 1807

*Ironwood Sculpture for Fire*

Created by designer Jarrett Bertoncin from raw steel with peeling birch detail and natural items. Each sculpture is cut and created using torches and welding equipment then fabricated from raw steel, one piece at a time. A final coating in a natural patina that is built up during the construction process causes each set to slowly rust as it ages.

*Yin Yang Gas Fire Pit*

Made of recycled materials and designed for firegear by artist Eric Maier, the Yin Yang Firegear is the first of several designs to come featuring ecologically friendly materials, artistry design and fire. multi air ventilation openings which double when removed as hand locators for moving.

**FMI Products**

Outdoor Booth 5553

*Devonshire*

A direct vent, ceramic glass gas fireplace with remote operation for variable flame and heat.

**Forshaw**

Inside Booth 2538

An indoor and outdoor furnace from WoodMaster heats with wood, wood chips or wood pellets with up to 200,000 BTUs. It is self cleaning and has a larger ash chamber.

### **Olympia Chimney Supply**

Indoor Booth 2067

*Ventis® Double Wall Black Stove Pipe*

Ventis® Double Wall Black Stove Pipe is UL Listed to ULC S-S641 standards and is the industry's first fume-free™ double wall black stove pipe on the market today. It prevents noxious fumes from enveloping a home upon initial firing of the appliance and has a free-flow design between the inner and outer wall that enables it to offer a continuous and consistent air flow decreasing the outer pipe temperature. Finally, Olympia Chimney Supply's unique, Smooth-Weld Technology and end-forming capabilities allow for ease of installation and an aesthetic appeal unlike any other. Olympia Chimney Supply, always innovating, never imitating!

### **Onward Manufacturing**

Indoor Booth 2556

*Regal 490 Pro with Broil King*

Heavy cast iron grids and 695 sq. in. of cooking space.

### **Outdoor GreatRoom Company, The**

Outdoor Booth 5138

*Allura-Venturi Flame*

The Allura consists of a glass cylinder secured to a turbo cell that delivers the air source at an accelerated speed. The combination creates a beautiful, swirling clean-burning flame. When used with bio-fuel gel, it will take a small flame of a couple inches, amplify it multiple times and create a beautiful swirl.

### **Pacific Energy Fireplace Products, Ltd.**

Indoor Booth 2417

*Alderlea Cast Iron Wood Stoves*

This series of wood stoves is made of lustrous porcelain and is available in either black or majolica brown.

### **PelletCan**

Indoor Booth 1645

*PelletCan Pellet Storage System*

The PelletCan BBQ Pellet Storage System offers a unique way of storing and dispensing up to five different flavors of wood smoker pellets. The commercial grade stainless steel lid of the storage system also doubles as a prep area. Easy to use and portable, there is no better way to store pellets.

**Robert H. Peterson Co.**

Indoor Booth 2401

*FyreGems*

Fyre Gems are the newest addition to our Real-Fyre Contemporary Alternatives Series, uniquely accenting modern fireplaces or outdoor fire features. Fifteen distinctive colors create a luminous and dazzling hearth. Fyre Gems can be used as a contemporary alternative to vented gas logs, in the Outdoor Campfyre fire pit or as an accessory surround a gas log set, in a wood-burning fireplace, for patio or landscaping and with candles and glass hurricanes as a decorative accent.

**Port-A-Cool**

Indoor Booth 2439

*Kuulaire KA77*

Personal Portable Evaporative Cooling for Home and Office. Cools indoors and outdoors, the Kuulaire KA77 cools up to 600 square feet, has touch panel controls, 2 speed settings, automatic swing louvers, timer and remote control, 8-gallon water capacity, and a convenient built in drink holder.

*Kuulaire KA45*

Personal Portable Evaporative Cooling for Home and Office. The Kuulaire KA45 cools up to 200 square feet, has 3 speed settings, automatic swing louvers, timer and remote control and a 3-gallon water capacity.

Unique, stylish wood carts and granite tops give Saffire unrivalled appeal. Comes with a patent-pending Wood Chip Feeder that makes adding smoke flavor safe and easy. The charcoal-fired, kamado style Saffire Ceramic Grill and Smoker has ceramic and stainless steel construction with bamboo side shelves and a limited lifetime warranty. Unique features and options include stylish wood carts and granite tops that give Saffire unrivalled appeal and a competitive advantage. The Saffire now features a new Cast Stainless Steel Top Damper, a new Logo Handle and a new thermometer with color coded cooking zones.

## **Select Outdoor Kitchens**

Indoor Booth 1423

### *The Finley Island*

The Finley Island cabinet offers all you can desire for an outdoor cooking cabinet in a compact, sleek design. The single drawer is the perfect place to collect your spices, sauces and grilling utensils. This cabinet has casters which ensure your cabinet goes wherever you need it to go.

### **Selleys (Australia) BBQ Cleaner**

Indoor Booth 1748

*Australia's Ultimate BBQ Care Kit*

The ultimate kit to clean all surfaces of a BBQ. The kit includes BBQ Tough Wipes for everyday grill and hotplate cleaning, BBQ Tough Clean for heavy-duty removal of grease build-up and BBQ Exterior Clean & Shine for cleaning and polishing stainless steel and other non-cooking surfaces. Comes in an excellent display box and is a huge hit in all major retail formats in Australia!

### **Simpson Dura-Vent**

Inside Booth 2845

*Combustion Air Systems*

Simpson Dura-Vent's Dura Pro Combustion Air Systems (CAS) include a selection of wall thimbles, ceiling supports, connector pipes and accessories for the purpose of supplying combustion air to wood and pellet-burning freestanding stoves. These systems eliminate the need for a second wall penetration for combustion air.

### **SmokinTex, LLC**

Indoor Booth 2152

*Smokin Tex S100 Gourmet Package*

Finest all stainless steel electric smoker oven with all the accessories you need to add smoked flavor to salmon, ribs, brisket, chicken and more. It also is a great warming/holding oven for your indoor and outdoor dining pleasure. Cold smoked salmon, cheese, pasta and more.

### **Stoll Fireplaces**

Indoor Booth 2229

*Heat Champion*

This hybrid fireplace door with 5,000 BTU heater comes with an optional cooking grill.

### **Suncoast Furniture**

Indoor Booth 1567

*Contempo Sling*

The Contempo features tubular aluminum extrusions throughout the chair and utilizes a two piece sling (seat and back) contoured to meet the design and comfort elements of each piece. The forward bending "front arms" and recessed front legs are inspired by European contemporary design elements found in upscale markets across the U S and Europe. Paint finish is called Chocolate and was selected specifically for this chair.

*Vision Chair*

This very simple, comfortable, chair designed for smaller areas (balconies, apartments, condos hotels) uses sleek aluminum extrusions and knife-edge welding on the arms that gives the appearance of one continuous arm and leg piece but is actually three pieces welded together. Notice the downward tilt of the arms and forward bending of the front and rear legs.

### **Team Grill**

Indoor Booth 2672

#### *Patio Series Game-Day Gas Grill*

Comes with stainless-steel front shelf, side shelves, three burners, porcelain-coated cooking grates and under-grill gas tank storage.

### **Thelin Hearth Products**

Indoor Booth 2245

#### *Tiburon*

This year, Thelin Hearth Products continues its classic elegance into a modern look and feel. The Tiburon series of stoves is a contemporary line of pellet and gas-burning stoves that are built to the same exacting standards you are accustomed to in all Thelin products.

### **Telescope Casual Furniture**

Indoor Booth 2167

#### *Fortis Contract Sling*

Stylish furniture with #531 tan on a textured snow frame and an oat solid surface acrylic table.

### **Timber Ridge products**

Indoor Booth 2329

#### *Backyard Host Outdoor Fryer*
