

Jake Hunter

I have spent the last fourteen years as a manufacturer's representative in the hearth, patio & barbecue business with Results Unlimited. As an independent rep I have had the opportunity to call on a variety of retailers and distributors thus forming many great businesses as well as personal relationships along the way. I reside in Granger, IN with my wife Beth and our two beautiful daughters Paige and Clare. For the past 11 years I have had the pleasure of representing the MWHPBA as a board member. In 2016, I was appointed to the National HPBA board as your MWHPBA representative.

Working closely with the other board members has been a valuable & enjoyable opportunity, the position has allowed me to share real-time information on industry issues such as the upcoming 2020 NSPS emission requirements on wood stoves, forced air furnaces & pellet appliances.
