

Amie Ryan

I'm so pleased to have been HPBA's first chairperson (2018-19) who comes from the service sector of our business. I'm a second-generation business owner (Est 1978) and appreciate the huge value in association membership. I've been an affiliate board member, then officer and representative to the national board for my states, since 2006. Many know I work constantly on government affairs matters to stem the tide of unreasonable regulation of our products. It's important to work with the air districts on change outs to be part of reasonable answers for their goals.
